Neuware - Master's Thesis from the year 2013 in the subject Business economics - Economic Policy, grade: 1.3, University of Wuppertal, language: English, abstract: The purpose of this paper is three-fold:- To identify the characteristics and political options of a country, that would affect the success of its ICT adoption.- To identify clusters of nations upon the international ICT indices and GNI per capita- To provide an overall guideline that incorporates these nations toward developing higher ICT indices.[.] This paper shows income level and social background can play very important roles incountry s ICT development. Within Asian region, South Korea represents the developedgroup, China and Vietnam characterize the developing group. China and Vietnam havesimilar political structure but the first is much bigger than the latter. Therefore, ICTimplementation is different between these 2 countries. This paper is organized as follow, first,short overviews of ICT development as well as the advantages of ICT. Second, 3 countries(South Korea, China and Vietnam) are described in details in both national characteristics andICT performance. In this section, the ICT industry and development of...
