H5733 2007m OCLC Number: (OCoLC)528790377 Subject: Computer security -- United States. Excerpt: . . . 9 Recently, Chairman Thompson and I directed Committee staff to investigate the implementation of the NIPP and SSPs to learn whether they are motivating private industry to protect our critical infrastructure. Because such a large task is based upon a voluntary partnership, we need to give great attention to whether actions are, indeed, being taken. That will be the focus of my attention at today s hearing. The release of the NIPP and the SSPs was delayed significantly. Unfortunately, the threat to our critical infrastructure was not simultaneously delayed. As a result, we have to quickly determine whether these plans are being implemented by owners and operators to better protect our critical infrastructure. It is not enough to create large, nearly unreadable documents and to discuss processes; instead, we must focus on implementation and execution. For instance, we must have effective and efficient communication between private sector owners and operators of critical infrastruc-ture and all levels of government. On September 26, 2007, Chairman Thompson and I sent a letter to Assistant Sec-retary Stephan and Director Caverly about the implementation of the SSPs and the status of the National Annual Report that is supposed to describe the implementa-tion of protection efforts. Based upon the Departments responses, we are quite con-cerned about whether verifiable action is being taken by the private sector. I am not here to reprimand the private sector or to viscerally call for its regula-tion. Because of the mission, however, I believe that all options should be on the table. I believe that we need...
