## MAXIMIZING TACTICAL FIGHTER AIRCREW EXPERIENCE IN COMBAT READY UNITS

Biblioscholar Aug 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x4 mm. This item is printed on demand - Print on Demand Neuware - This study investigates the problem of how the United States Air Force can simultaneously maximize aircrew flying experience in combat ready fighter units, provide sufficient tactical expertise on the staff, and sustain viable aircrew replacement training programs. It analyzes whether or not there is a serious lack of fighter experience among pilots in combat units. The value of the experienced pilot in combat situations is discussed and some fighter force management changes are recommended. The general conclusion of this study is that fighter force management policies and procedures should be revised so that the maximum number of experienced pilots will be available to fight what is likely to be an intense, 'come as you are' war. Recommended force management changes include assigning the bulk of the aircrew replacement training mission to Air Reserve forces, decentralization of some aircrew training programs, and the decentralization of several staff functions. 74 pp. Englisch.
