Brand New Book ***** Print on Demand *****.Excerpt from Practical Poultry Husbandry, Vol. 1: Housing Equipments; Appliances; Breeds and Varieties; Mating and Breeding; Culling; Selection and Breeding for Egg Production The more nearly fool-proof a poultry house can be made, just that much more certain will the average person be of succeeding in the production of poultry and eggs at a profit. By fool-proofness we simply mean that the house, its ventilators and windows need but little adjustment, being always ready for use. The interior of the house is protected from rain, drafts and storms. As someone has well said: The shutter ventilator is to the hen house what the block system of signals is to the railroad - it does not depend on the fallibility of human memory, adjustment or correct use; it is always in place and in working order, no matter what the weather may be. The facts which are contained herein, and the houses which are herein illustrated are the results of the experimental work with poultry housing problems which I did at the Missouri State Poultry Experiment Station. I have made certain alterations in this lesson and improved the house where I thought necessary. I originated this idea for ventilating a poultry house. Much of the loss and many of the ills and disappointments met with in poultry raising can be traced directly to nonsensically-designed, poorly constructed, badly-ventilated, inconveniently-arranged and improperly-located poultry houses. A poultry house need not be elaborate or expensive. The Quisenberry fool-proof poultry house can be easily and economically built. It was designed with a view of economy, simplicity, comfortableness, convenience, dryness, cheerfulness, sanitation, and of having the proper amount of ventilation and sunshine. It was...
